

POWER'S MORAL FRAMEWORK FOR BUILDING THE CLIMATE-JUST BELOVED COMMUNITY

At POWER we hold these moral lenses in building a climate-just Beloved Community:

- We hold the **intersection of race and economics** as integral to the climate conversation.
- We make **front and center** the voices of people most impacted by poverty, racism and climate crisis. **Black, Brown, poor and immigrant communities** and allies are building a multi-faith, multi-racial movement to transform the old energy economy into an inclusive, clean energy economy.
- We believe the **rights and dignity of workers** are essential to any transition from a fossil fuel economy to a renewable one.
- We stand for healthy lives for all: **pathways into Green Jobs; local and inclusive investment in green infrastructure**; and solutions that build economic opportunity, lift people out of poverty *and* challenge racism, as we work for a livable planet.
- We **build bridges between urban and rural communities** and between the U.S. and Global communities to create a racially and economically just movement that is both very local and very universal, putting community and care of the earth over exploitation and greed.
